

To develop our technology and to implement our strategy for a better sustainable future we have chosen collaborators that help us enhance our products and market availability.

We are operating with a local and global focus and our future aim is to develop a strong structure to deliver our products and services worldwide within the near future.

Some of our most important partners in this process is

Estonian Biomass Association - our local partner

<http://www.eby.ee/>

Biofuel Cities European Partnership - our european network associate

<http://www.biofuel-cities.eu/>

Dr.Alan Bittner - our micro-liposculpture specialist and raw material supplier
